

Swat the profiteer by making a home garden.

Assassination seems to be the popular European pastime.

Soldiers who bring brides home with them never will forget the war.

Fortunately, some anarchists are as better as marksmen than as citizens.

Now must the corkscrew join the bootjack in the limbo of things that were.

For the war profiteers it looks to be all over since they put it over, over there.

The child labor law doesn't prohibit work that will make mother's burdens lighter.

Eggs in China are selling for six cents a dozen—but we prefer to live in America.

The woman, ankle-bound by a tight skirt, doesn't walk; she does a sort of hesitation glide.

Those soldiers who miss the war will, of course, marry immediately upon their return.

The backyard hen and the home garden will help meet living costs—if you keep them apart.

Nothing is regarded by American experts as so good for an attack of bolshevism as a sea voyage.

Maybe the farmer is opposed to daylight saving because he wastes less of it than anybody else.

We have often wondered whether the females who use cigarettes employ breath-killers like the men.

Perhaps the ex-soldier, as he is confronted with the cost of civilian clothes, is sorry the war is over!

There are, even in this solemn time, things not to worry about. One of them is the shortage of garlic.

The farmers who work only from sun-up to dark shouldn't care a hoot what the clock says about anything.

There are 10,500,000 in this country who are not citizens, besides all those who never should have been accepted.

Returned soldiers should not be permitted to work in their uniforms—it makes the rest of us look insignificant.

Another objection to a crisis in Russia is that it reinjects too many unpronounceable names into the discussion.

No sane man can follow a red flag after partaking of a breakfast of sausage, buckwheat cakes, and maple syrup.

Many people would join that "buy what you need" movement of the council of defense if they had the money.

England is confronting a servant-girl famine. There are some institutions which the new democracy is hitting hard.

There is said to be a movement on foot to call the kings and queens in the deck of cards "presidents" and "suffragettes."

The influenza germ has been practically subdued and is fortunately unable to disguise itself and resort to propaganda.

Conscientious objectors are reported returning their pay to the government, surely the acid test of conscientious objections.

The soldier who goes to buy a civilian suit of clothes as he scans the prices is pretty likely to conclude war wasn't so bad, after all.

Assassination follows the red flag. That is one good reason, if there were no others, why the red flag should not be permitted to wave.

"Jazz" is very popular in Paris. Some of the reports indicate that American music is making more of a bit than American words.

Uncle Sam will invest wisely if he backs the man who would go back to the soil. Failure to back would amount to turning his back.

Those famous "lights" of London town" are beginning to glimmer again, albeit faintly. The dread of air raids has passed, but coal is scarce.

A large number of so-called bolsheviks are no doubt recruits from the large number of persons who do not investigate and are willing to join anything once.

A medical journal counsels that the hand-shaking practice be abandoned to prevent the spread of influenza. Nevertheless, we shall take a chance on hand-holding.

Germany faces the inescapable fact that it is responsible for the war and all the evil consequences it entails. It should not grumble against its own handwork.

One benefit of modern surgery is that any soldier now can have a face built to order on his own plan. The privilege of picking a face is, indeed, one of the modern miracles.

Rid Her of All Her Pain
Mrs. L. Wavre, 2728 3rd St. Ocean Park, Calif., writes: "I am thankful to say Foley Kidney Pills rid me of all my pain. I advise anyone to try them after the good they did me."

"Backache, sore muscles, stiff or swollen joints, rheumatic pains are indications of kidney trouble. Foley Kidney Pills are safe, reliable,—adv.

You never can tell. Many a man outlives his usefulness who never had any.

FLIES FROM CHICAGO TO THE METROPOLIS

ARMY AVIATOR MAKES FIRST NON-STOP TRIP BETWEEN THE TWO CITIES.

COVERS 727 MILES WITHIN SEVEN HOURS, MOSTLY AT ALTITUDE OF 12,000 FEET.

Mineola, N. Y.—Flying at an average speed of 106.33 miles an hour for six hours and fifty minutes, Capt. E. F. White, an army aviator, completed the first non-stop flight between Chicago and New York at 5:40 o'clock p. m., April 19, landing at Hazelhurst field.

The distance covered was 727 miles. Most of the distance, Capt. White said, was made at an altitude of 12,000 feet.

Capt. White, who was accompanied by his mechanic, said that the trip was without incident.

He will remain at Hazelhurst field for a few days and then fly to Washington. He said he would not attempt a non-stop flight back to Chicago.

Scarcely had Capt. White's successful non-stop flight from Chicago to Mineola been finished when the executive committee of the Aero Club of America awarded him the club's medal of merit, "in appreciation of his marvelous demonstration of the practicability of using airplanes for fast transportation."

The presentation will be made at Atlantic City May 4, during the second Pan American aeronautical convention.

WIDOW GETS MATE'S ESTATE

Medina, O.—The will of the late Dr. N. S. Everhard of Wadsworth, who died recently worth a million dollars, leaving no issue, creates a trust fund of his estate, the use of which goes entirely to the widow.

After her death bequests are given amounting to \$48,200, including the following: Cleveland Medical Library Association of Cleveland, \$5,000; Pastors' Fund Society of the Lutheran church, \$10,000; home missions of the Lutheran General Synod, \$10,000; county committee of the Y. M. C. A., \$1,000; Wittenberg Guild, Springfield, \$1,000; Martha E. Breyley, Detroit, \$15,000; Dr. W. P. Ellenberger, Washington, \$5,000.

After the payment of these the residue of the estate is to be divided, share and share alike, between the nephews and nieces and grand-nephews and grand-nieces, of whom there are forty or fifty, of both Dr. Everhard and his wife.

ADMITS SLAYING HIS BABY

Detroit.—William McKinley Argo, 21 years old, 789½ Michigan avenue, confessed to the police that he murdered his 10 months old baby, Rufus, in a fit of anger by taking the child by the heels and dashing its head against a bed because its crying had annoyed him.

Argo said that one of the last things he did after the child's mother left the house to go shopping was to take the baby's hand and wave a fond goodbye out of the window. It was not until the child became bothersome that he lost control of himself, he said.

Argo was arrested after Mrs. Joseph Carter, his landlady, had reported to police that she did not think the baby's death natural and that frequently she had seen the father maltreat the child.

KILLED PLAYING 'WILD WEST'

Philadelphia.—Nine-year-old Katherine Smith, daughter of Mr. and Mrs. George Smith, 6114 Glenmore avenue, West Philadelphia, was fatally shot while playing "wild west" with her younger sister and brother.

Mrs. Smith went to market, leaving the three children at play. One of them suggested they play burglar on wild west. Katherine found two revolvers in a bureau drawer and was giving an imitation of a cowboy when she accidentally touched the trigger, a bullet piercing her heart.

The younger children ran to the street crying and neighbors summoned the police. Katherine died on the way to the hospital.

SHOOTSELF THROUGH HEAD.

Chicago.—"Want to see a good man die?" asked George Dada of Special Policeman Thomas McCarthy.

"Sure," said McCarthy with a smile. "Here goes," Dada grabbed the officer's revolver and shot himself through the head.

Police were trying to determine Dada's reasons for suicide.

SEES SUFFRAGE PARTY.

Washington.—Senator Curtis of Kansas, Republican whip in the new senate, asserted his belief that the joint resolution providing for a woman's suffrage amendment to the federal constitution would be passed immediately after the sixty-sixth congress meets in extra session.

"I am confident," said Senator Curtis, "that the suffrage amendment will secure the necessary two-thirds vote in the house and senate and be passed by both bodies."

A Welcome for Sickness
Indigestion, clogged stomach, and bowels, more than an invitation to illness; it gives a cordial welcome. Undigested food ferments and sends poisons throughout the system. Foley Cathartic Tablets are wholesome, quick in action, and had after effect. Cleanse bowels, sweeten stomach, tone up liver. Sold everywhere.—adv.

If every lie could be nailed iron would soon become as scarce as radium.

AIM OF AGRICULTURAL CLUBS

The principle objects to be attained through the promotion of boys' agricultural clubs in the south as defined by those in charge of this work, are:

1. To encourage and train boys along the lines of the activities of country life.

2. To put into practice the facts of scientific agriculture obtained from books, bulletins, etc.

3. To bring the school life of the boy into closer relationship to his home life.

4. To assist in the development of the spirit of cooperation in the family and in the community.

5. To dignify and magnify the vocation of the farmer by demonstrating the returns which may be secured from farming when it is properly conducted.

6. To enlarge the vision of the boy and to give him definite purposes at an important period in his life.

7. To furnish to the aggressive, progressive rural school teacher an opportunity to vitalize the work of the school by correlating the teaching of agriculture with actual practice.

The aim of the boys' club work is the same as that among men—viz. to secure the adoption of better methods of farming and greater yields at less cost. Many of the boys in the clubs who begin to study agriculture in this way will continue the study in the agricultural colleges; others will continue such efforts on their farms, and all of them will make more useful and more efficient citizens. From the pleasant and profitable experience of owning and managing their small plots they will develop into independent, intelligent farmers.

Farmstead Improvement

The size of a farm business is not necessarily measured or limited by the number of acres in the farm. One of the field men of the department, engaged in far survey work, reports the case of a Wisconsin farmer, so situated as to make it possible for him to buy or rent more land, who solved the problem of small acreage by speeding up the 80 acres that he had.

This farmer's first move was to dispose of his scrub cows and to replace them with grade and purebreds; next, without great expense, he improved the sanitary conditions of his barns. He established a cropping system based on corn and alfalfa, choosing the latter rather than clover because on his farm it produces at least 50 per cent more per acre than does clover, and is much more dependable.

Pastures have now entirely disappeared from this farm, because its owner has demonstrated that one acre of corn and one of alfalfa together furnish him with more feed than do five acres of pasture. His improved, well fed herd, housed in a clean, well lighted and thoroughly ventilated barn is yielding him more than double the milk he formerly got from his scrub herd. Furthermore, the quality of the milk has improved and he demands and gets the price of a first class article.

The largely increased net income which this farmer now receives from the sale of milk and of purebred cattle is based on the comparatively small changes in his type of farming, which have augmented his business without entailing any increase in the size of his farm.

To Keep Rabbits From Young Trees

A fruit grower and nurseryman who has had considerable damage done by rabbits tells us that he has at last found a remedy. It is none other than one of the common coal tar dips or disinfectants used about stables and to keep flies away from cattle.

A rather strong solution is used and it is put on with a spraying machine after each heavy rain or fall of snow throughout the winter. When the snow is deep a knapsack sprayer is used or even a common hand potato sprayer. The mixture is sprayed only on the portion of the trees which the rabbits can reach and therefore only a small quantity is required for each tree.

These materials are not poisonous to the rabbits but act as repellents only. They do not like the smell and they keep out of the orchard, or at least do not gnaw the trees.

Some orchardists dip clothes in melted sulphur and hang them about the orchard. Others smear blood on the trees and along the rabbit runways. These methods are more or less effective.

A solution of crude carbolic acid is sometimes recommended to be used as a spray, but the cost at the present time is almost prohibitive. Since its virtue lies in its odor rather than in its poisonous qualities it seems logical that some of the coal and tar disinfectants would do equally well as our informant has found to be true by experience.

Sterilizing Eggs.
Government experts are investigating a method for sterilizing eggs which is being tried out by a firm in Minnesota. The life germ is supposed to be killed, the pores of the shell hermetically sealed to prevent evaporation and to keep germs from getting into the egg to cause deterioration, and the sweetness of the egg is retained, according to the men who are doing the work.

Cut This Out—It Is Worth Money
Don't Miss This. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup. Foley Kidney Pills and Foley Cathartic Tablets.—adv.

ACT QUICKLY

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective. Plenty of Canfield evidence of their worth.

Mrs. W. B. Fay, Court St., Canfield, says: "I had a dull ache in the small of my back that kept up constantly. When I stooped over a stitch would catch me and it would be hard for me to straighten. My kidneys were in poor shape and caused me much annoyance, too. I often had headaches and dizzy spells when I could see black spots before my eyes. Doan's Kidney Pills had been recommended so highly that I tried them. I hadn't taken many before the backache left and my kidneys acted as they should."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Fay had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—adv.

What Every Business Man Wants

LOW COST HAULING—The average motor truck purchaser is not so much interested in how a motor truck is built. What really interests him is how much mileage he is going to get out of his truck for every dollar invested. International Motor Trucks have been built with this one feature constantly in mind hauling the load the greatest distance with least expense.

A Motor Truck That Lasts—Every part of an International Motor Truck that is subject to wear is provided with a removable bearing or bushing. If these parts are replaced when worn, and the truck is given the care and attention that any high grade machine deserves, an International truck will last and serve for years. Years of service is what the business man wants and years of service is what he gets with the International.

Appearance That Adds Dignity to a Business—All other things being equal, customers favor the man whose equipment makes the best appearance. International Motor Trucks have that staunch and business-like appearance that inspires confidence in a business house and in the products it handles. They add an air of prosperity and dignity that proves a valuable asset.

A Real "Service to the Owner" Organization—There is an International Motor Truck of a size to meet almost every hauling requirement. We have a service and selling organization without an equal in this section of the country. Think what this means to you after you have become an owner. We are strong and the International organization is strong on "Service to the Owner," after the sale is made. Come in to our salesroom and see what we have to offer in trucks and service.

"Public Opinion"

In awakening public appreciation to the economical value of the automobile in general, the 600,000 Overlands now in use have played an important part. Model 90 is a car of such attractive appearance and sterling performance that owners everywhere praise its economy and practical value. It has power in abundance and luxurious comfort that make staunch friends. Public approval thus won and expressed is your safe guide in selecting a car. Now is the time for a Model 90.
